

Fantasyland Hotel Cage-Free Eggs Commitment

The customers of Fantasyland Hotel expect high quality and ethical standards, which is why we have incorporated social responsibility into our business practices with initiatives that support the environment, community, food safety, and animal welfare. Like our customers, we are concerned about the welfare of the animals used to produce the egg products that we offer, and we recognize that food quality and safety depend on healthy animals. This policy endeavours to prove that providing ethical, sustainable food is possible for all of Canada's food providers. We are proud to announce our commitment to sourcing 100% cage-free eggs in our supply chain by 2025.
